Curriculum Vitae

Personal details dr. Bart A. Lameijer
Nationality: Dutch

Job experience 2018–present University of Amsterdam Business School Amsterdam

Senior consultant and Assistant Professor:

Consultant, researcher and Lean Six Sigma program co-director at the Institute for Business and Industrial Statistics (IBIS UvA), which is an independent consultancy firm owned by the University of Amsterdam. IBIS UvA specializes in strategies for operational excellence based on sound data-analytical methods, such as Lean, Six Sigma and Statistical Process Control. IBIS UvA positions itself as a provider of innovative professional courses and services, excelling in intellectual depth.

Research:

Executing research in the field of operational excellence at the section Operations Management. The main topic is the implementation of Lean and Six Sigma methodologies in organizations. The general purpose is to understand the challenges in the adoption of methodologies for data-based process improvement in organizations, and finding solutions for overcoming these.

Teaching:

Acted or acting as coordinating teacher for the UvA courses:

- Lean Six Sigma Black Belt and Green Belt (executive education). Supervision and evaluation of LSS project execution (acting Master Black Belt); developing Lean Six Sigma training curricula.
- Operational Excellence for BSc. Business Analytics, MSc. Bus. Administration, EMFC (Finance), EPMS (Management).
- Process Improvement in Healthcare for MBA Healthcare.
- Master thesis proposal workshops for MSc. Bus. Administration Digital Business.

Serving as guest lecturer for:

- Business and Operations Processes, BSc. Bus. Administration: guest lecture Lean management
- Operations and Supply Chain Management EMFC: several guest lectures on advanced Lean and Supply Chain Management.
- TIAS Business School, Executive Master in Operations and Supply Chain Management: guest lecture Introduction Six Sigma

Supervising master theses for:

- MSc. Bus. Administration, EPMS, MBA Big Data and Data Analytics

2017-2018 Deloitte Consulting Amsterdam

Senior consultant CFO Services, Deloitte Strategy & Operations

Selected projects:

- (1) Leading an operational readiness project for the execution of a two year financial crime client remediation effort for a large Dutch bank.
- (2) Creating the business case for a global improvement program by delivering a data analytical root cause analysis of problems in the global banking network of a Dutch bank.

2011-2017 ABN-AMRO Bank Amsterdam

Lean Six Sigma (LSS) Master Black Belt

My responsibilities have been:

- (1) Problem identification in the Agile transformation of the IT organization, coaching of consultants, process improvement project execution and Lean Six Sigma training.
- (2) Setting up the Lean Six Sigma program in Germany, training new consultants and executing departmental improvement projects.
- (3) Setting up value stream objectives and strategies, installing value stream management teams and leading projects in value stream process optimizations (private investments and non-program lending).
- (4) Lean Six Sigma project execution, departmental team training and senior management coaching.
